The School

One hour from Paris or from the coast of Normandy, a plateau overlooking Rouen in the municipality of Mont-Saint-Aignan, the Rouen School of Management offers its students a privileged setting, on a wooded campus covering 7 hectares, equipped with the best infrastructures and with numerous cultural and association activities.

In this exceptional site, where several thousand students and teachers from all kinds of backgrounds meet and talk every day, the campus is host to daily events open to a wide variety of people – talks,

debates, symposiums, etc., which contribute to the intellectual reputation of the School and to the cultural life of the region. This constant activity is reflected in the dynamic student associations, which organise a multitude of events on the campus: sports competitions, awareness campaigns, exhibitions, parties, the life of the School is punctuated by such activities throughout the year.

The City

Half-way between Paris and the sea, Rouen, the capital of Normandy, offers students a wide choice of destinations and activities, for every season. Normandy is well-known for the D-Day landing beaches, but it hides a lot more treasures as well: Deauville, Honfleur, Etretat, and an amazing variety of landscapes. Easily accessible by road or by train, Paris is just 1 hour from the centre of Rouen.

Rouen, the city of a hundred spires, is renowned for its Gothic architecture and the charm of its historic streets with their 1,200 half-timbered houses. Rouen attracts tourists from all over the world, because of memories of Joan of Arc, the paintings of Monet and the descriptions of Flaubert, Maupassant, Victor Hugo ... Ten minutes away from the campus, Rouen offers students all the attractions of a big city: cinemas, museums, theatres, concert halls, an opera, etc.

With its 400 000 inhabitants, it is also a dynamic conurbation, building for the future on the old industrial sites along the Seine to the west of the town, to transform them into areas of service activities, leisure and shopping complexes, close to what will be the biggest road lift-bridge in Europe.
